

General: Width [W] always refers to the dimensions of the corpus including glass side panels left and right. For combinations, 5 mm at each outside [see example picture] are omitted.

Height [H] is corpus **including** glass cover plate, without feet. For the total height, please add the following measures:
 Steel supports: 6.5 cm
 EDGE feet: 13.0 cm

Depth [D] is the overall depth **including** the front.

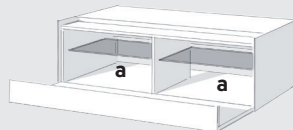

Depth and height of Cocoon elements can not be shortened. The inside depth of the drawer is 37.4 cm and does not change in case the depth of the element is extended.
 If the depth of the element itself is extended the inside drawers [COZ1 and COZ4] remain unchanged.

All dimensions are in cm:

CO2

	standard	minimal	maximum
W	66.8	40.0	70.0
H	38.5	38.5	42.0
D	53.8	53.8	60.0

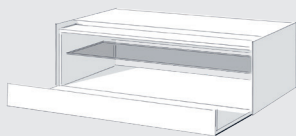

CO3

	standard	minimal	maximum
W	131.0	70.1	150.0
H	38.5	38.5	42.0
D	53.8	53.8	60.0

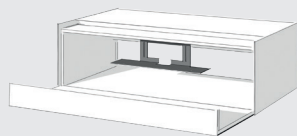

Shortening width: Right/left [a] will be shortened proportionally

Extend width: The right/left compartments [a] change proportionally
