

Press release: 09.09.2024

A promising new chapter for Spectral

Since its foundation in 1994, the German furniture brand **Spectral** has built up a very good reputation as a specialist in the field of audio and TV furniture as well as high-quality home furniture.

Although Spectral Audio Möbel GmbH faced challenges in May 2024 and a new start in its current form proved unfeasible, this does not mean the end of Spectral.

Since September 5, 2024, Spectral Holland and Slotboom Groep B.V. have entered a new future with the acquisition of the brand names and design rights. This gives us the opportunity to continue and further develop the highly valued Spectral furniture brand. "We look forward to continuing Spectral's legacy with renewed energy and dedication and continuing to offer our customers high-quality, innovative furniture that fits perfectly with the latest technologies and modern living spaces."

In addition to the established core markets of Spectral Holland and Slotboom Groep B.V. (BENELUX), strategic entry into the German market is also planned for 2025.

In this context, it is planned that two former executives of Spectral Audio Möbel GmbH, who worked in the areas of design and sales, will join the new owner from Q1-2025. With their many years of experience and specialist expertise, they will strengthen the existing team in a targeted manner and make a significant contribution to the company's continued success on the German market.
