

side

More space in the room.

Storage space doesn't sound sexy. Until you stand in front of Side. Our new sideboards and highboards are practical, timeless and versatile. But above all, they are smart eye-catchers – and the perfect complement to Spectral's media lowboards.

Made in Germany.

Side System

Side

Side is a system furniture for individual lowboards, sideboards and highboards.

The system consists of numerous elements that can be lined up. The logical grid of 25 or 50 cm steps allows easy planning. The range offers a high variety of interchangeable surfaces.

With doors, drawers or flaps, Side is suitable for all living areas. With its high surface variety, useful options and made-to-measure Side can fulfill many individual wishes. The possibilities are virtually unlimited.

Thanks to its timeless and puristic design, Side is the perfect complement to Spectral's media lowboards. Like all Spectral furniture, Side is manufactured in Pleidelsheim in southern Germany.

Side is available in two different design variants.

Model 1. Model 1 is timeless. The overflowing top plate forms the classic design.

Model 1 is available in all finishes.

Model 2. Model 2 is modern. The overflowing fronts and sides offer a modern design concept. Model 2 is available in colour glass, metallic glass, design glass and Fenix®.

Different variants with doors, drawers or flaps, in combinations, ready for lining up. Top plates and side panels are included in the basic price.

Width grid: 50 cm, 100 cm, 150 cm

Height grid: 50 cm, 75 cm, 100 cm, 125 cm

Depth grid: 38 cm, 48 cm

Each element can be individually shortened in width and depth.

Solid construction with 19 mm wall thickness and 8 mm back panel, doweled and glued, for maximum stability. The cabinet surface Sand is finely textured, exceptionally robust and easy to clean. 5 cabinet colours are available: snow, grey, pebble, granite and black.

Sturdy 19 mm shelves in cabinet colour, height adjustable and included in delivery. Additional shelves can be ordered.

Top plates are included with each element. A continuous top plate can be selected for several elements. Depending on the surface, there are different maximum widths. Smart varnish and veneer up to 275 cm. Colour glass, metallic glass and design glass up to 350 cm. Fenix® and ceramic up to 300 cm.

Damped hinges, soft-close drawer mechanism and flap dampers of the highest quality.

Standard: Base pedestal plate, wall mounting, Edge foot or Stick foot are included in the basic price.

Foot frames: Bridge, Blade and Frame are available at additional cost.

Base colour for foot frames and Edge feet is black. Base colour for Stick foot is black and brushed aluminum.

All feet and foot frames can be painted in desired colour.

Side can also be placed freely in the room. In this case, a surface panel can also be mounted on the back. The rear side is then fully clad.

Lighting

Indirect LED lighting on the rear edge of the furniture. LED strips can be individually planned at the top, bottom and sides. Open elements can also be illuminated on the inside. LED lighting is dimmable and can be operated by remote control or app. The light colour is warm white [3200 Kelvin].

Cable management

Surfaces

Model 1 is available in smart varnish, colour glass, metallic glass, veneer and Fenix®.

Model 2 is available in colour glass, metallic glass and Fenix®.

Top plates for model 1 and model 2 are also available in design glass and ceramic.

Smart varnish. Smart varnish is a particularly high-quality paint finish. It consists of several layers. The top coat is a soft-touch surface and has an anti-fingerprint effect. Smart varnish is more scratch resistant and lightfast than conventional paints. The edges are applied separately using a laser process and are shock-resistant.

Colour glass. Colour glass consists of a 4 mm safety glass plate. The paint finish is applied to the underside. The glass surface is very hard, scratch resistant and easy to clean. There are 5 base colours to choose from as well as over 2,000 custom colours. This can be selected from the NCS or Sikkens 5051 colour chart [most RAL colours are available on request]. The glass surface can be selected in gloss or satin [matt].

Metallic glass. Metallic glass has the same properties as colour glass and is available in 6 chic metallic colours. The glass surface can be selected gloss or satin [matt].

Design glass. Design glass consists of a 4 mm safety glass plate. A high-resolution digital print is applied to the underside. The surface is brilliant and visually indistinguishable from a natural motif. Design glass is very hard, scratch resistant and easy to clean. Design glass is only 4 mm thin and therefore appears light and elegant. The glass surface can be chosen glossy or satin [matt]. Satinized glass renders the motif blurred, but thus appears discreet and restrained.

Design glass is only available for top plates.

Veneer. Our veneers are made of real wood. The surface is brushed and sealed with a matt natural wood varnish. This makes the wood surfaces easy to clean and hard wearing. There are 4 wood tones to choose from. Natural oak, American walnut, smoked oak and black oak. The veneer direction can be selected vertically or horizontally.

Fenix®. Fenix® is an extremely matt nanotech material, the surface is particularly regal and has a velvety touch. It is also resistant to fingerprints. We process Fenix® in the elegant 4 mm thickness. This allows for a particularly light and intricate design. Fenix® is available in 6 harmonious colours.

Dekton® ceramic. Ceramic is our most durable surface. It is extremely abrasion, scratch and impact resistant. It is also resistant to heat and stains. The ceramic plates are 8 mm thick and available in 4 regal, matt surfaces.

Ceramic is only available for top plates.

Price groups

The surfaces are divided into four price groups.

Price group 1: Smart varnish

Price group 2: Colour glass and metallic glass

Price group 3: Veneer, Fenix® and design glass

Price group 4: Ceramic

2. Tailor-made options

With Side you have options for customization.
Tailor-made according to your ideas, custom carpentry
for your home. Popular changes are in the table below.

* For dimensional changes and continuous top plate please use furnplan
planning software.
A separate request and written quotation is not required for this.
For further options and information, please visit our website
at www.spectral.eu/tailor-made or inquire directly with our customer service
by e-mail at info@spectral.eu.

Type of change	Remarks
Dimensional change *[1 charge for all dimensional changes per combination]	For elements with colour glass, metallic glass, design glass and ceramic
Dimensional change *[1 charge for all dimensional changes per combination]	For elements with smart varnish, Fenix® or veneer
Dimensional change in height	
Move or change cable opening in top plate	
Special glass	For example: cable outlet at rear edge glass top plate
Change interior layout S	Small change, e.g. shorten center bar
Change interior layout L	Major change, such as customization or division
Add steel reinforcement	From clear width 67,0 cm
Cable outlet / cutout in the wooden cabinet D = 6,0 cm, position according to sketch	Price per additional cutout or omission of a cutout
Cable outlet / cutout in the wooden cabinet individual according to sketch	Price per cutout
Reposition wall mount bracket	

3. Individual price calculation

Individual price calculation is done

in 3 steps:

1. choose base elements (closed or open)

2. choose optional functions

3. Surcharge for surfaces

Type Dimensions cabinet

	Width	Height Model 1	Height Model 2	Depth 38	Depth 48
--	-------	-------------------	-------------------	-------------	-------------

Base elements closed

Base elements are available in 10 dimensions and 2 depths.

The basic price is valid for price group 1, surface smart varnish and includes: Cabinet, doors, side panels and top plate as well as one of the base installation types (Base, Stick, Edge, wall mounted).

Options function

Surcharge flap width 50 cm
Surcharge flap width 100 cm
Surcharge drawer width 50 cm
Surcharge drawer width 100 cm
Cable cutout top plate
Cable opening cabinet
Side shelf

Dimensional changes

The width of cabinet elements can be shortened to the next smaller size.

Drawers require a minimum width of 32,0 cm. Depth is possible from 30,0 to 38,0 cm and 38,1 to 48,0 cm.

Change in height possible only on request, see Tailor-made section.

Surcharge for dimensional change 1
Smart varnish, Fenix®, veneer
Surcharge for dimensional change 2
Colour glass, metallic glass, design glass, ceramic

3. Individual price calculation

Image

Surcharge article

Design glass and ceramic is available exclusively for top plates.

Room divider option

Room divider is possible only for elements with depth 48 cm and maximum height 75 cm. The number of drawers is limited depending on the planning situation. Please use planning software.

Surcharge room divider rear panels 25 x 50 cm
Surcharge room divider rear panels 25 x 75 cm
Surcharge room divider rear panels 50 x 50 cm
Surcharge room divider rear panels 50 x 75 cm
Surcharge room divider rear panels 100 x 50 cm

SD1-100-050-048	A105	Sideboard model 1, closed, type A105 Incl. drawer 50 cm wide, 2x Surface drawern front: Colour glass [PG2], 2x Surface door front: Colour glass [PG2] Surface side panel: Colour glass [PG2]
SD-DP01		Side top plate Surface: Design glass [PG3]
FR3002		Foot frame Frame with 3 frame parts, T48 Colour type of installation: Colour of your choice

4.1 Installation types standard

Standard installation types are included in the basic price of the furniture element. The base colour is black matt (Stick is also possible in the surface polished aluminum). Optionally, Stick and Edge feet can also be painted in the colour of your choice from the NCS or Sikkens 5051 colour chart.

Image	Type	Dimensions [cm]
		Height
	Base	2,2 – 3,2
	Stick	7,8 – 8,8
	Edge	13,0 – 13,5

Image	Type	Dimensions [cm]
		Height
	Wall mounted	optional

4.2 Installation types foot frames

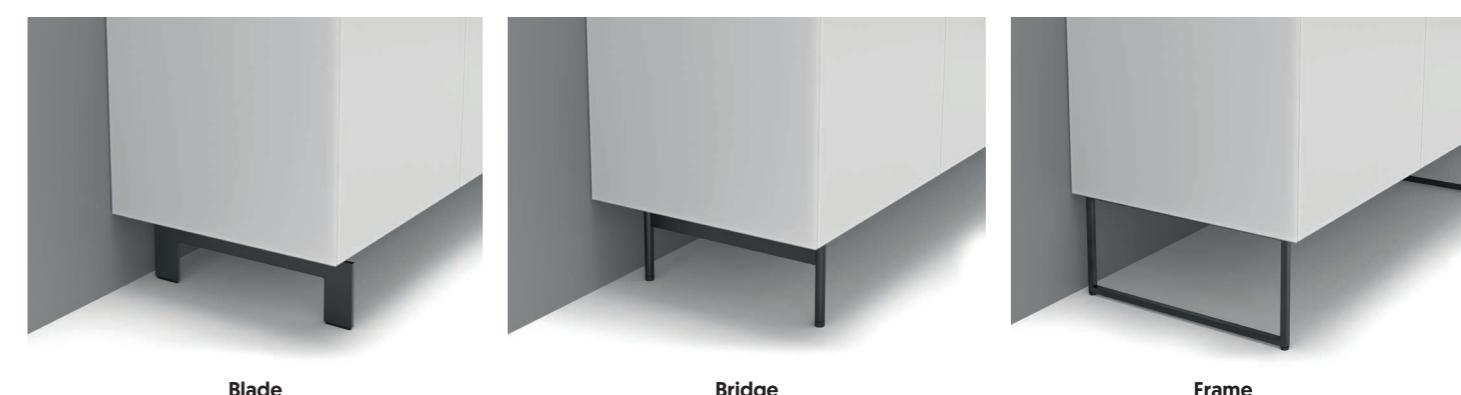

The base colour is black matt, all base frames can optionally be painted in desired colour from the NCS or Sikkens 5051 colour guide. The crossbars between the frame parts are always black.

All foot frames are height adjustable:

Blade: Height 16,0 cm + 0,5 cm
Bridge: Height 18,5 cm + 1,0 cm
Frame: Height 20,0 cm + 1,0 cm

* The depth cannot be reduced for elements with the installation type Frame.

Image	Type	Dimensions [cm]	Suitable for furniture		Dimensions foot frames		
			Depth	Width	Width	Height	Depth
	Blade with 2 frame parts	38,0	100,0 – 219,9	81,8 – 181,8	16,0	33,6

5. Smart Light

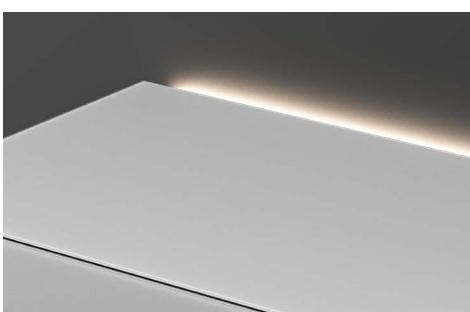

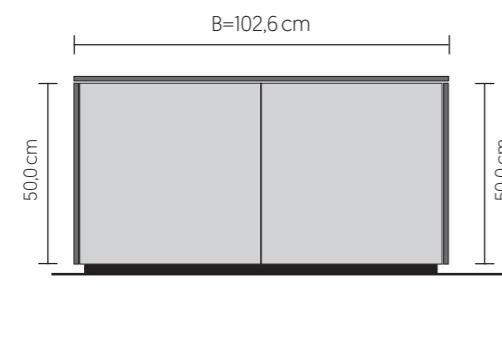

Image	Article	Function	Price per 1 cm
-------	---------	----------	----------------

LED-SD **Indirect LED lighting**
Lighting along rear edge of furniture.
Depending on the model, the position of the LED strips can be individually planned at the top, sides and bottom.
Light colour warm white, approx. 3200 Kelvin

LED-AN2 **Connection kit LED-AN2**
For operation by remote control or smartphone app with dimming function. For LED strips that are 5 m or longer a second connection set is required.

Example pricing:
The price is based on the furniture dimensions:

$$50,0 \text{ cm} + 102,6 \text{ cm} + 50,0 \text{ cm} = 202,6 \text{ cm} \times \text{€ / cm}$$

LED interior lighting open element H=50 cm
LED interior lighting open element H=75 cm
LED interior lighting open element H=100 cm
LED interior lighting open element H=125 cm

LED AN2, Connection kit BT for Smart Light

The interior lighting can be controlled with the LED connection set of the indirect trailing edge lighting (see above).
If no LED illumination is planned for the rear edge, the LED-AN2 connection set is additionally required.

ZU1873 **Interior lighting**
LED light with motion sensor

ZU1874 **USB charger**
For interior lighting

Note on real wood veneer:

Real wood veneers from different logs differ. Therefore, there can be no absolute colour and texture uniformity between different fronts, sides and top plates. Likewise, there can be deviations between wood samples in the specialized trade and the finished furniture. If a component is added to a piece of furniture later, there may be natural differences in colour and structure. These differences are a characteristic of real wood veneer and make your furniture unmistakably unique; they do not constitute grounds for complaint.

Note on glass surfaces:

Glass is a product made from natural raw materials and is subject to variations in production technology. Depending on the inherent colour of the glass, glass thickness and lighting conditions, there may be colour differences between different glass surfaces. Likewise, there may be deviations between glass samples in the specialized trade and the finished furniture. In the case of subsequent deliveries of glass surfaces, production- and batch-dependent colour differences are possible and do not constitute grounds for complaint.
