## a warm welcome to spectral

---

**Welcome to the original.**

**Can engineers make good furniture? Above all, can engineers make good-looking furniture? The answer is a resounding yes, twice over. At Spectral, we have been working (rather successfully) at the interface between beautiful interiors and state-of-the-art consumer electronics for 25 years. In fact, we have been pioneers in this market segment – with innovative ideas, such as the out-of-sight integration of sound systems. What's more, we are acknowledged leaders in the development of smart furniture – with solutions that are as intelligent as they are elegant. So, treat yourself, and your living room, to the original. You'll love it.**

**Spectral's management duo:**  
Markus Krämer and Frank Krämer

## spectral quick the in stock collection

---

**Start now instead of waiting a long time. Those who are just in love don't want to wait for the first date forever. You don't have to: All TV furniture, TV stands and racks that you find in this catalogue will leave our factory within 24 hours after ordering. And will arrive rather quickly in your living room. Look forward to the usual Spectral quality at the speed of light – and cool down the bubbly.**

**If you'd like to delve deeper into the world of Spectral, you may wish to take a look around our Website: [www.spectral.eu](http://www.spectral.eu). It presents all of our collections, models, versions, and options – and is sure to showcase a product that's just perfect for you.**

**Virtual surround sound**  
A virtual surround sound system comprises left and right speakers, plus a 2.1 subwoofer in a compact enclosure. The sound is mixed to create a surround effect at your ear. But unlike conventional systems, there's no need to install five speakers and a 5.1 subwoofer. What's more, the DTS® Tru-Surround technology does not require walls or other reflectors.
